- Allowable Range (25 miles)
- Sample Campground Buffer
- Kettle Moraine State Forest - Pike Lake Unit
- Out of State - Do Not Move Firewood
- State Forest
- State Park
- Sample Campground

0 3 6 Miles

In order to prevent the movement of invasive forest insects and diseases, firewood burned in Wisconsin DNR campgrounds must originate from within the state and within 25 miles of the campsite. In addition, firewood that has been harvested, purchased, stored, or moved through an Emerald Ash Borer quarantine area may not leave the quarantine area. Firewood from sources approved by the Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) is allowable. For more information about firewood regulations, please visit: <http://dnr.wi.gov/invasives/firewood>
